

## Chairman Announces: Industrial Assessments Will Benefit Workers

### By \$440,000 Annually

Payment of medical and hospital costs by employers consequent upon the recent amendments to the Workmen's Compensation Act and which became effective on Oct. 31 and Dec. 31, 1943, will cost industry approximately \$440,000 annually, it is estimated by Dr. Victor W. Wright, chairman of the board.

The additional assessment covers only the increased benefit which became effective on March 30, 1943, and does not provide for the additional costs that will arise through the medical aid absorption by industry.

Dr. Wright, in commenting on his action, said:

The increased benefits to injured workmen and the dependents of totally injured workmen, consequent upon the recent amendments to the Workmen's Compensation Act has necessitated a revision of the current assessments levied against employers.

The Workmen's Compensation Board has made a comprehensive

### Plan Improvements

## \$500,000 Is Appropriated By Dominion Government For Tar Sands Oil Plant

By JAMES MCCOOK

OTTAWA, April 15—(CP)—The Dominion government has appropriated \$500,000 to spend on improving a plant taking oil from the Alberta tar sands and hopes to recover costs from paving material produced for the Alaska highway, Minister Howe told the House of Commons yesterday.

## Manitoba Flood Waters Receding

WINNIPEG, April 15—(CP)—The Manitoba flood, which has inundated trapping in the Assiniboine river here, lowering further serious flooding in the Winnipeg area, is receding steadily as a pilot plant.

Giant ice floes, which had plagued the river for several miles, were freed and today were floating steadily downstream.

At Brandon, 10 miles west of Winnipeg, where the river inundated several hundred acres of farmland, the river dropped 15 inches yesterday and the level was rising steadily.

Meanwhile the Red river at Selkirk, 29 miles north, waterworks officials believe the threat of further flooding has passed.

## Reds Hurl Back German Attacks

By HENRY SHAPIRO  
Exclusive to The Edmonton Bulletin

MONTEVIDEO, April 15—(UPI)—A German army smashed an attempt to capture an important height on the west bank of the Uruguay river, today, while Soviet guns to the north routed enemy forces massing for an attack near Chuy.

In another sector, Soviet scouts slipped through the enemy lines and captured a number of German prisoners. Misunderstanding what was happening, an adjoining German unit, with the same column and a pitched battle was said to have continued between the two German forces for two hours after Soviet guns had returned to their lines.

Russian forces in the western Uruguayan sector have broken and captured enemy pillboxes and trenches by the dim light of dawn and beat off repeated German counter-attacks. —

## Two Nazis Escape Internment Camp

SHREWDROPS, April 15—(UPI)—Two German merchant seamen—Rudolph Altmutter, 29, and Peter F. Faggs, 24—escaped yesterday in court for "thundering rides" to the war planes where they are employed, said P. S. Culliford, who reported the girls for failing to pay a local ordinance which prohibits a man with a marked German emblem. —

### Gals Fired

WALTHAM, Mass., April 15—(AP)—Four female war workers yesterday in court for "thundering rides" to the war planes where they are employed, said P. S. Culliford, who reported the girls for failing to pay a local ordinance which prohibits a man with a marked German emblem. —

Two Nazis left without saying thanks or good-bye, Faggs said his best silver and linen disappeared, too.

Faggs added, however, that he wants to be fair-minded and not impugn that Rommel himself was the sneakiest.

## Italian General Camps In Rommel's 'Backyard'

LONDON, April 15—(UPI)—Two German merchant seamen—Rudolph Altmutter, 29, and Peter F. Faggs, 24—escaped yesterday in court for "thundering rides" to the war planes where they are employed, said P. S. Culliford, who reported the girls for failing to pay a local ordinance which prohibits a man with a marked German emblem. —

They paid—with money Faggs said he later learned had been stolen.

When the Nazis left without saying thanks or good-bye, Faggs said his best silver and linen disappeared, too.

Faggs added, however, that he wants to be fair-minded and not impugn that Rommel himself was the sneakiest.

## Home Building Permits Total Over Million

Value of private home building

was set at \$1,000,000 in Edmonton

in 1942, and for which applications

for the necessary permits

have been made. The total is esti-

mated to be well in excess of \$1,000,000,

according to John Hodges,

city manager.

The payment of additional costs

by the government, which be-

came effective on October 31 and

December 31, 1943, will involve an additional annual cost to indus-

try of approximately \$440,000.

The Workmen's Compensation

Board has made a comprehensive

assessment.

Payment of medical and hospital

costs by employers consequent

upon the recent amendments to the Workmen's Compensation Act and which became effective on Oct. 31 and Dec. 31, 1943, will cost industry approximately \$440,000 annually, it is estimated by Dr. Victor W. Wright, chairman of the board.

The additional assessment covers only the increased benefit which became effective on March 30, 1943, and the date has not been determined to

and does not provide for the addi-

tional cost that will arise through

the medical aid absorption by industry.

Dr. Wright, in commenting on his action, said:

The increased benefits to injured

workmen and the dependents of

totally injured workmen, consequent

upon the recent amendments to the Workmen's Compensation Act has necessitated a revision of the current assessments levied against employers.

## British, Yanks, Russians

## Axis Rocking Under Three-Front Air Blows for First Time in War

By HARRISON SALISBURY, *Examiner*

Copyright, 1943, by British United Press

LONDON, April 15.—For the first time in the history of the war, the Axis now is rocking under a three-front Allied bombing offensive which is dropping a record tonnage of explosives on Germany, Italy and occupied territories.

The Royal Air Force and the United States Army Air Force have been making unopposed attacks directed primarily at the German war industries in the Ruhr, the U-boat bases and facilities, and transportation.

Since the start of the closing phase of the Battle of Tunisia, British and American fighter-bombers based in Africa and Sicily have joined in with steady mounting attacks on the Italian mainland and Sicily and Sardinia.

## RUSSIANS JOIN IN

Now the Russian Air Force has opened up a third major bombing sphere with two heavy raids on Novosibirsk, the industrial and communications center in the last few days.

Whether the Russian plan to maintain long-range bombing pressure against Germany is unknown, but specialists agree that the raids may be connected with apparently developing German moves against the Soviet Union.

Koenigsberg is known to be one of the main bases in the rear for the northern front in Russia.

The Soviet attacks were believed to have been carried out by Red Air Fleet's 100 bombers of the American Flying Fortress. The Russian air force is known as the TBFs. It has a range of about 1,200 miles with a speed of 600 miles per hour.

## IS NIGHT BOMBER

The TBF is a four-motor bomber equipped with 110,000 horsepower, and its engine is used primarily for night bombing and therefore is not believed to be as strong as the British aircraft. As the Fortress, the Soviets' mounts are heavily armed and armored bombers.

Koenigsberg is the closest major German target to the Russian bombing bases, but a raid on that city would mean a long round-trip flight of about 900 miles.

Only sporadically during the war have the Russians engaged in long-range bombing, and to cause the planes have been needed for close-in work along the front line.

However, with the current lull along most of the Russian front, the Red Air fleet may be joining in the long-range bombing offensive against the Axis.

The Russians also have a limited number of heavy and medium bombers which originally were converted from passenger jets. They probably have been used by the Soviets in their attacks on Berlin. But they were believed to be too few in number to add much to the major offensive already under way.

## MOUNTING IN SOUTH

Along with the Russian attacks, those by planes based in the Far East are mounting steadily. In the last week Naples has been attacked three times, and now is believed to be running a close race for the title of the most-bombed Axis city.

Additionally, there were six other attacks on Sicily, and the Italian, Sicily, Sardinia, and the Italian boot.

The home-based R.A.F. has joined in the campaign against Italy with a heavy attack on the Neptis naval base which topped off a week of intense bombing weather. There were only three massive attacks against German targets, including two on the Ruhr and one on southwest Germany.

## Lower Meat Prices Hinted in States

WASHINGTON, April 15.—The office of price administration hinted strongly it will order lower meat prices for meat in suit pending yesterday for a month new dollar-and-cent ceilings on beef, lamb and mutton originally scheduled to take effect today.

In addition to the ceilings, the agency clamped ceilings on horse meat and approved corn transformation to help hold down prices of dairy and poultry products and encourage increased production of them in areas where feed is expensive.

The dollar-and-cents ceilings on beef, lamb and mutton were established by the Office of Price Administrator Prentiss Brown, explained, to permit a full realization of the cost of living as they are in accord with the directive (from President Roosevelt) requiring a tight holding of the line on cost-deflating items.

## Press News Group

## Elects Officers

## At Annual Meet

TORONTO, April 15.—(CP)—Arthur R. Ford, of London, Ont., editor of the London Free Press, was reelected president of Press News Limited at its annual meeting here. The radio news arm of The Canadian Press, of which Mr. Ford is president.

R. H. M. Munro, of the Timmins Daily Press, was reelected vice-president and other directors reelected. Also reelected were Rivers le Nouellier, Senator W. Rupert Davies, Kingston Whig-Standard; H. M. Husson, Sarnia Canadian Observer; W. B. Preston, W. McCurdy, Winnipeg Tribune.

## Daily War Map—Exclusively in The Edmonton Bulletin

The capture of Sousse and Kairouan has come so quickly that, although a large force was able to draw the enemy back by the converging attacks of the British and American forces, the enemy was bypassed and mopped up later.

It is noted that the British and American forces are moving in opposite directions.

## Hitler Confers In Berlin With Ion Antonescu

LONDON, April 15.—(AP)—

Hitler held a long conference in Berlin with Marshal Ion Antonescu of Rumania. It was disclosed last night as the latest disclosed in time in history diplomatic meeting of His Majesty, the King, with a foreigner.

Only sporadically during the war have the Russians engaged in long-range bombing, and to cause the planes have been needed for close-in work along the front line.

## UNEASY SITUATION

The German radio announcement avoided any suggestions underlying the uneasy position Hitler has in trying to reconcile his bitter relations with Bulgaria, which he has been trying to bring to the Balkans.

The conference also came after a significant succession of conferences between Hitler and King Boris of Bulgaria, and recently between Hitler and Premier Nicholas Kallay of Hungary April 3, and Hitler and Mussolini April 10.

Hitler's radio broadcast said:

"The German radio announcement avoided any suggestions underlying the uneasy position Hitler has in trying to reconcile his bitter relations with Bulgaria, which he has been trying to bring to the Balkans."

## ALBERTANS PRESENT

The shy, slim youth was accompanied by his father, L. A. J. A. Crane of Medicine Hat, Alta., and Crane's Scotch wife.

Another British Empire Medal was awarded to R. H. B. Carter, of St. George, N.B., who was decorated for courage and fortitude in the field of war. Carter, a member of a crew, was the first to drop a crew member crashed off the British coast. He helped support a drowning crewman for 3½ hours before being rescued.

Back from the Middle East, WO Desmond McCabe of St. Catharines, Ont., received the Distinguished Flying Medal for services there.

Other members of the list for D.F.M. awards were:

Fl. Lt. Gordon Goodale of Bradford, Ont., Pilot Officers: Mr. Frank Hamilton of Moncton, N.B., Flight Officer: Mr. George W. Meager of Mulgrave, N.S., Flight Sergeant: Lorne Boucher of Grand Falls, N.B., Flight Sergeant: Mr. Francis and Francis Mitchell off Leamington, Que.; Sergeant: William George of Hamilton, Ont.; WO Egri of Abbotsford, B.C.; Lieutenant: Steven of Rapid City, Man., and Earle Warren of Regina.

## ARMS SUPPLIED

It said weapons of automatic rifles, mortars, were being supplied to bush-organized German groups in Rumania, Hungary, Bulgaria, and, on orders of Hitler, Himmler.

Demonstrators who marched in Budapest yesterday received a call to arms. The call was not arrested, it said, and others also were seized there for circulating anti-partisan pamphlets.

## Yugoslav Patriots Cut Railway Line

LONDON, April 15.—(CP)—

Admiral Ivan Milivojevic, Yugoslav patriots opposed by a combined force of Germans and Italians as they had been held in Novi Sad, had cut the railway line between Sarajevo and Dubrovnik, an important seaport, the Daily Telegraph and Morning Post reported today.

During road raids under the protection of other R.C.A.F. patrols, the patriots had cut the railroad and machine-guns fire into freight trains, road transport, a tank column and a signal box.

One of the Focke-Wulf was credited to P.O. C. S. Page of Stratford, Ont.

The R.C.A.F. reported three of its aircraft missing at the end of the day's operations.

## R.C.A.F. Assists As Jap Sub Sunk

TORONTO, April 15.—(CP)—

The late Miss Edith Granit Bowdoin, whose estate was valued at \$100,000, died yesterday with her will that a \$10,000 trust fund be established to provide for her dog, a German shepherd, and her son, to the joint ownership of Dr. Beckerman L. Delatour, New York, and Mr. and Mrs. Edward J. Bowdoin.

In Toronto, on leave, P.O. Page, who had been engaged in an action with the R.C.A.F. patrols, was given an audience by a Canadian submarine.

Later patrols, including one with an American destroyer and Canadian corvette searched it and sank it.

## GETTING NAZIS' GOAT

LONDON—(CP)—"Norki, Ukebaid," the most widely circulated Norwegian weekly magazine, has been suspended for publication and its capital assets have been confiscated for "challenging the present regime."

## Press Freedom Said Essential For Democracy

TORONTO, April 15.—(CP)—

Hon. W. Kerr, Saskatchewan minister of natural resources, last night urged the Canadian press to maintain that "freedom of the press is the very breath of democracy."

No dictatorship can flourish where the press is free, Mr. Kerr said, speaking at a dinner marking the 25th anniversary of the Canadian Press and 35th anniversary of the Canadian Journalists' Association. Press freedom is the present of the present co-operative news-gathering organization.

MUST STAY FREE—  
"Even when there is a threat to your freedom in this Dominion, and such a threat is most unlikely, then you must stay free," he said. "The newspaper writers themselves from all parts of the nation, 'You fight not only for yourselves alone, but for all of us.'

Mr. Kerr, then with the Regina Leader, was one of founders of the Canadian Press. He said: "The first great non-profit news organization in Canada was founded in 1909 by the Canadian Journalists' Association, the Canadian Press."

The Dominion owes great debt to its war correspondents, "men like Ross Munro, Canadian press chief," he said. "The Canadian Standard and others, not forgetting our news-photographers and moving picture cameras."

The Dominion owes great debt to its war correspondents, "men like Ross Munro, Canadian press chief," he said. "The Canadian Standard and others, not forgetting our news-photographers and moving picture cameras."

TO RAISE MONEY—  
"To those who argued that gold in quantity would be required by Canada, I said, 'We must have a policy of self-sacrifice and of attempting to communicate with the German people in their language and of not giving up our war aims.'

Mr. Kerr said: "The Dominion has made great strides in this direction, but we must not let our policy be dictated by the German people."

TO RAISE MONEY—

## Bomb Axis Defences, War Plants

## Softening Up Europe for Invasion

By HARRISON SALISBURY  
The Edmonton Bulletin  
LONDON, April 14—Three months after the Casablanca conference Jan. 14 finds the Allies the verge of accomplishing the initial task assigned Prime Minister Churchill and President Roosevelt—the expulsion of the Axis from Africa.

This is the initial requisite established by the conferees for the launching of the British program—the invasion and defeat of Hitler within his European citadel.

The first phase of that second task—the softening up of Nazi defences and war industry, and that is well under way under the aegis of the British and not of equal intensity, but probably of equal comparative effect, against Italy and Italian outposts in Sicily.

Although most attention has been focused on the attacks in north Africa, Britain's war effort against submarine bases and the German arms industry, the Allied air war against Italy, is not of equal intensity, but probably of equal comparative effect, against Italy and Italian outposts in Sicily.

After March 1, Rommel's expeditionary force in North Africa will be prepared to proceed through with the invasion of Europe proper. What is not yet known is the military secret but there is growing speculation in London that southern Europe will respond to the British's March 10 resumption of the search and trapping of Allied invaders.

The Allies required about two months to capture Sicily. That before they could really come to grips with Rommel.

## WILL RE-GROUP FORCES

Although it is assumed the participation of the Axis in soft-undertake will be forward by tide with those for defeating Hitler, the war in Europe will be considerable regrouping and retooling for the British. This will be followed by the American forces before they start across the Mediterranean.

While no information probably will be available on the front operations in northern Europe until the end of the year, the southern European expeditionary force has won a strong foothold.

The Allied ability to launch an ultimatum against Italy and south Europe obviously is limited by shipping capacity, which in turn is affected by the progress of the battle of the Atlantic.

**BH ARMY SPEARHEAD**

It is not known whether the ferocity of the U-boat attacks has affected the British's ability to supply by Churchill and Roosevelt at Casablanca, but it usually can be as-

## Blimp Crashes, Spills Out Crew, Then Bounds On

HOLLISTER, Calif., April 15—(AP)—A United States navy blimp crashed west of Hollister early yesterday, spilling out its crew of nine, and then bounded across low hills, coming to rest a week ago, about 12 miles away.

Increasing American forces also will be available, including the Allies' own, which will be considerable regrouping and retooling for the British. This will be followed by the American forces before they start across the Mediterranean.

**Senator Davies Is Re-Elected Head Of Press Union**

TORONTO, April 15—(CP)—

Senator W. Rupert Davies, King-Whig Standard, was reelected chairman of the Canadian section of the Empire Press Union at the annual meeting of the Canadian section of the Empire Press Union at the Canadian section of the Empire Press Union.

The executive committee is com-

posed of H. Robinson, St. John's, Que.; Leo Soleil, and George V. Ferguson, Winnipeg Free Press.

representing daily newspapers; E. Roy Sayles, Renfrew Mercury, repre-

senting weekly newspapers; and T. H. McLean, Mississauga Publishing Company, Toronto, representing the periodical press. W. A. Crake, Industrial Canada, was reelected business treasurer; and T. F. Drummond, Saint John Tele-

graph-Journal, auditor.

**The Bulletin's  
SPORT SHOW**  
by Hal Dean  
SPORTS EDITOR

IT WAS chiefly a case of too much Kaminsky and Bardsley out at the Arena last night so far as Saskatoon R.C.A.F. loopers are concerned and as result No. 3 "M" Depot Red Devils and not the Cranes are now rolling along toward Vancouver for the western basketball finals which start on Friday.

John Kaminsky scored 19 points, nine of them in the fourth quarter, and Jim Bardsley, in addition to registering 15, ran the team in the third and fourth quarters.

But although this pair put the finishing touches on many of the plays, the rest of the Red Devils certainly did their share and the team just passed the opponent day after day in the fourth quarter, when they gave a magnificent display of half-handling. *Close*.

**"BUSHER" JACKSON OUT**

THE OUTLOOK for the "M" Depot cagers did not appear any too bright prior to the commencement of last night's game as a result of "Busher" Jackson. The "Busher" came out second best in a bout with the St. Louis Cardinals and went to hospital. He had led the team in scoring in the first game with 23 points.

However, Bruce Fisher filed in very quickly in addition to picking off six points did a neat bit of checking along with some valuable ball carrying.

Don Gray bagged nine points on his shooting eight-pointed program last night. We supposed several passes though which resulted in baskets and was one of the key men in the Red Devils' superb coming out.

Jack Forrest was sent in regularly and turned in a good performance and Ellery Gill was also used in the fourth quarter.

**HANSEN CRANES' BEST**

MILT HANSON was again the M. H. stand-out for the Saskatoon R.C.A.F. The big Tabor boy, who two weeks ago was the best in the game against the R.C.A.F. will probably be the last here for the duration for Reg Robertson. He leaves in a few days to continue his naval studies at another centre.

**Rival to Count Fleet**

**Blue Swords Viewed as Possible Upset in Derby**

By CHARLES MOREY

NEW YORK, April 15—(UPI)—On a hazy, humid afternoon at Washington Park last August, an ungainly bay colt, the gold and black silks of Allen T. Simmons swirled from the track at the eighth pole in a six furlong dash and drove at the favorite, flying in front.

The Simmons colt didn't miss by a short neck. But when the victor was led back to the barn, he knew he had it in the horse race.

The race—a prep for the \$60,000 Washington Park (National)—might have been the last time the Kentucky Derby. For the favorite was Count Fleet, current 6-to-5 choice. The Simmons colt was 8-to-5. The race, which was a yearling, Blue Swords, juvenile season was a lengthy one. Beginning in January at Hialeah, he did well, but was not a top horse. Then he found himself in the mud, spending time in New York in the fall.

Through the winter, he was a sharp horse, and the ran the fastest six furlongs of the aqueduct fall meeting, won the early stages of the Derby. Blue Swords may be able to take him in the drive.

**To Keep You Fit..**

**ENO**  
IS THE ANSWER

In these days you can keep in top condition for wind and wool. Millions of people the world-over have found in Eno's "Fruit Salt" the answer for vigorous health of inner fitness. Eno is the pleasant way of assisting your system to overcome and keep free of constipation, heartaches, indigestion and that listless, out-of-sorts feeling. Start taking sparkling, refreshing Eno first thing every morning. You'll feel better in its action, pleasant-tasting Eno is entirely free of sugar and harsh bitter salts such as Glauber and Epsom. Keep fit with Eno—buy the large, economical bottle today.

**ENO'S 'FRUIT SALT'**  
FIRST THING EVERY MORNING

**Red Devils Beat Saskatoon Cranes 46-34; Take Round 96-85**

**"M" Depot Cagers Reach Western Final**

**Kingsway Park  
Opens April 13  
For Practices**

The Kingsway fastball park will be open for practice of the various ball clubs starting April 13. The teams will be able to have full workouts in other diamonds, but for some it will be the initial turn out. The coaches are urging last year's players along with any others who want to try out on the basis.

"Porky" Andrews contributed nine points and launched many points in the first game. He is fast and lived up to his reputation as being one of the best in the league. He was watched very closely.

Ralph Burton's best work was in the fourth quarter when he was in the lead. The best was Dave Renne who six points were given to the Cranes in their third game. He managed to appear to have an off night.

Red Devils had a distinct edge over the opponents in shooting accuracy, with 70 chances for a percentage of 31.4. They made five baskets in 15 attempts in the fourth quarter. The best was Bruce Fisher with 85 tries or 17.6 per cent. Their shooting accuracy in Monday's game was 24.2 per cent. Total Red Devils was 24.1.

**GULICKSON AS USUAL**

JULIAN GULICKSON raked up 20 points for the U.S. Engineers. The team game against the Air Corps last night was a 15-10 win. The best was Jim Bardsley with 10. "M" Depot

last night as a replacement for "Busher" Jackson. It would seem that he is a good replacement for the Red Devils are great passes, and John Gilligan is a good replacement for the series.

Finally, realizing that the war will change the competition of any team or teams on very short notice, 36 of the 72 writers participated in the annual news service survey named the Yanks to top the junior circuit for the third year in a row.

But after voting the Yankees the best, the writers' survey of the writers became widely separated, except in the opinion that Connie Mack is the best.

With five of the series, naming them for first place, the Los Angeles, Boston, and St. Louis, in second position except seventh and eighth to nose out the Cleveland Indians, St. Louis Red Sox, and second.

Cleveland was mentioned for the position last night as the Detroit Tigers, who with one first place vote, finished fifth with 10 points.

THE 1946 AMERICAN LEAGUE was a year of 100 wins at St. Louis, and season was a lengthy one. Beginning in January at Hialeah, he did well, but was not a top horse. Then he found himself in the mud, spending time in New York in the fall.

Through the winter, he was a sharp horse, and the ran the fastest six furlongs of the aqueduct fall meeting, won the early stages of the Derby. Blue Swords may be able to take him in the drive.

**Arrows Will Meet Tonight**

ARROWS, champions of the Eastern baseball League last year, are to meet the opposition at 7:30 tonight at V. Horner's (Arrows) office.

## Bulletin Patterns

A Soft Shirtdress

4323

If you want a shirtdress that's soft, young and becoming, choose Pattern 4323 by Anne Adams. The front panel is cut to fit the figure, shape, and panels give slim skirt lines. Notched cuffs are optional. Both sizes 16 and 18.

Pattern 4323 is available only in misses' and women's sizes 16, 18, 20, 22, 24, 26, 28, 30, 42, 44 and 46. Size 16 takes 3 1/2 yards of 54" fabric and 1 1/2 yards of 54" trim.

Send twenty cents 20¢ in coin to Anne Adams, 1151 West 9th Street, Los Angeles, Calif.

Anne Adams pattern. Write plainly, size, name, address, style number.

Send your order to Pattern Department, The Edmonton Bulletin, 60 Front Street West, Toronto, Ont. Delivery will be made by air mail, or by rail, and you may take a few days longer because of the slower service of the mails.

Please allow a week or ten days for delivery.

Clothes are often placed under the mail of a ship during construction.

COTTON PRODUCERS

Nineteen states of the Union grow cotton with Texas providing the largest crop, usually about 25 per cent of the total.

## Points For Parents

By EDYTH THOMAS WALLACE

Mother: "Wait, daughter! If there is something you think you should tell me about sister, let's call her in so she can tell her, too."

Parents can do much toward making their children frank and franking individuals.
